Kenney Chen

Atlanta, GA | (470) 680-6891 | kchen755@gatech.edu | U.S. Citizen

Objective

Seeking a Summer 2027 internship in software engineering, starting May 2027. Georgia Tech Computer Engineering student with hands-on experience deploying production AI systems, building embedded and leading technical teams.

Education

Georgia Institute of Technology | Atlanta, GA *August 2026 – Present*
Bachelor of Science in Computer Engineering, GPA 4.00 Expected Graduation, May 2029

Skills

Programming: Python, FastAPI, PostgreSQL, Redis, SQL, Java
Hardware: 3D Printing, Robotics (VEX)
Tools/Platforms: Git/GitHub, Claude Code, AI Agent Orchestration Professional
Organizations: Technology Student Association (TSA), BuildForge
Communication: Team leadership, mentorship, technical writing, public presentations
Languages: Chinese (conversational), English (fluent)

Experience

Osho Sushi & Hibachi | Atlanta, Georgia *December 2025 – May 2026*
AI Solutions Engineer

- *Designed and deployed a multi-agent AI voice-ordering system using FastAPI, PostgreSQL, and Redis, automating live intake.*
- *Built backend infrastructure for real-time order orchestration, reducing manual order-taking overhead.*

Hong Kong City | Atlanta, Georgia *2016 – Present*
Shift Manager / Cook / Cashier

- Managed POS operations and service flow for shifts averaging 200 guests.
- Launched UberEats/DoorDash delivery integration, driving a 60% YoY increase in delivery orders post-COVID.

Projects

BuildForge *Fall 2022 – Present*
Founder
Founded and lead a 5,000+ member international STEM/robotics Discord community; individual initiative.

- Built and lead the community, running two virtual hackathons and a 10-student weekly mentorship program. · Shared 250+ member STEM projects across the network, growing engagement organically.

AgriNexus
Team Lead *Spring 2025*
Co-designed a TinyML-powered precision agriculture system using an ESP32-S3, capacitive moisture and BME280 sensors, and MOSFET-driven dosing pumps to automate real-time nitrogen delivery.

- Trained a TensorFlow Lite Micro model to predict soil moisture 10 min ahead, cutting water use 28% and fertilizer use 18% in 3-week trials; placed at TSA Nationals Leadership Conference.

Relevant Coursework

Introduction to Computing, Linear Algebra, Calculus I–III, Physics I & II (Mechanics & Electromagnetism)

Leadership or Activities

Atlanta Contemporary Basketball Association | Head Basketball Coach *December 2023 – May 2026*

- Coached 50+ youth; led 5th-grade team to consecutive championships and ran summer clinics.

Passion Exploration Project (PEP) Georgia | Coordinator August 2023 – July 2026

- Directed 20 volunteers, launched tutoring for 60+ students, helped raised $3K+ serving 800+ across Metro Atlanta.

VEX Robotics Team 1961Z | CAD & Programming August 2024 – May 2026

- Helped 9-member team towards state qualification and state quarterfinals.
